Congratulations on your purchase of a puppy from the Yoder family! We certify that the puppy you purchase is in sound health at the time of sale to the best of our knowledge. We do our best to raise happy, healthy puppies that will provide your family with a lifetime of love.

Any congenital abnormality or condition deemed to be a result of breeding will be warranted for 1 year from the puppy's date of birth. If such a condition is determined by the buyer's veterinarian within 1 year, please contact us immediately. The puppy may be returned with a written statement from the diagnosing veterinarian and the buyer will receive 100% money back, or a replacement puppy may be chosen. If the puppy is returned, the buyer is responsible to pay return shipping. The buyer may also make a compromise to keep the puppy. If the puppy should die within 72 hours of purchase, an autopsy from a state veterinary lab is required for replacement or reimbursement of the puppy. This guarantee recognizes original owners only. All guarantees do not cover any veterinary fees or services and shipping fees.

In extremely rare situations, after leaving our care a puppy might become medically compromised in a variety of ways. We cannot guarantee the puppy against illness or opportunistic parasites brought on by the stress of moving, shipping, or motion sickness as a result of being transported from our home to yours. This stress can ignite illnesses that are dormant such as, but not limited too; parasites, coccidia (dormant in most live animals), giardia (also dormant in most live animals), ear infection, upper respiratory, and hypoglycemia. These conditions are easily treated and do not warrant a reimbursement. We do not guarantee the puppy to be "worm-free" as deworming is an on-going process that, once the puppy is out of our care, is the sole responsibility of the buyer. If for some reason you cannot care for your puppy any longer please return the puppy to us.
